

62 THE WORLD FAMOUS BLUE LIST Bu

1962

Of Fine Daffodils

From

THE DAFFODIL MART

George W. Heath

Nuttall, GLOUCESTER, Virginia

Phone OX 3-5052

We present with pleasure a list of 659 varieties which we raise and which may be seen in bloom in our fields or DISPLAY GARDEN. Some of these, especially the higher priced ones, will be dug only if ordered by JULY 15, so PLEASE ORDER EARLY!

In CAPITAL letters are varieties which are new with us this year and which, with a few other varieties we especially recommend, are described on Pages (10 thru 13).

NOTE our magnificent list of 120 MINIATURES. As Alec Gray is no longer retailing in this country, you may call on us for any of his varieties not included herein, BUT, we MUST have your order for them by MAY 15th.

We are constantly in touch with other growers both here and abroad and will gladly obtain any you cannot find in our catalogue, provided we have your list of any (save Miniatures) before JULY 1st.

SPRING IS THE TIME TO ORDER BULBS. They will be shipped between SEPTEMBER 15th, and NOVEMBER 1st - earlier delivery is impractical - later delivery inadvisable. We make every effort to ship our Northern orders first and do ask that you plant your bulbs IMMEDIATELY upon arrival - if unable to do so, open the bags and allow air to get to them. If you have any criticism, it MUST be made within 10 days after the receipt of the bulbs.

The PRICES are PER BULB, and are for true to name, top-sized bulbs, unless otherwise stated (as in the Bushel lots, which are of blooming size but not necessarily top size). After more than forty years of experience solely in this field we have and uphold a reputation for reliability and every order receives our individual attention. We will gladly quote DISCOUNTS on lots of 50 or more of a variety as well as on GARDEN CLUB orders of \$50.00 or more. Due to the terrific increase in overhead, we regret we are no longer able to fill orders for less than \$5.00. Should you want only a few bulbs, you can always find a friend who will go in with you to bring the total up to \$5.00.

PARCEL POST, now sky high, forces us to follow the policy of many mail order houses who request you to ADD 10% of the TOTAL order, East of the Miss., 15% West of same. Note exceptions to this are BUSHEL BARGAINS which are Prepaid and small orders (not over a dozen) for high priced bulbs, in which case you may add 50¢ for handling East of the Miss., \$1.00 West.

We ship DAFFODIL BLOOMS throughout the season - see ENCLOSED GREEN SLIP.

BULBS FOR NATURALIZING - For those interested chiefly in mass or group plantings to be left down for many years, we highly recommend our 1962 BUSHEL SPECIAL and our Naturalizing Mixtures (see page 3). Our NOVELTY and other Mixtures, (on same page) are world famous.

If interested in BUSHEL BARGAINS write us by July 1st.

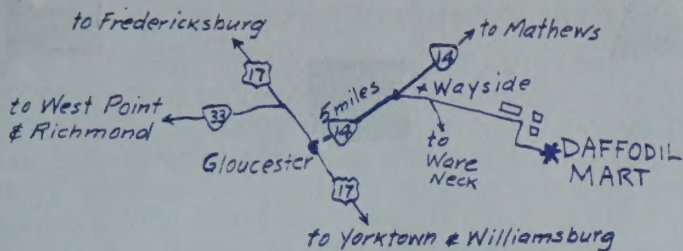

OUR DISPLAY GARDEN

No extravaganza, this - just thousands of bulbs (over four hundred varieties) in a small area of pine; many naturalized on the banks of a little ravine; a number of miniatures snuggling the tree roots; a few varieties never seen before in this country, as well as some old types that have been here on the shore of Back Creek since Colonial times. No historic mansion, no fields and fields of blooms to be seen (we are in the bulb business,) but most welcome you are, Daffodil devotees; and if, after this discouraging diatribe, you decide to come, we shall be most happy to see you - 7 days a week (week days if possible as weekends are often too crowded for pleasure or comfort), any daylight hour - from about March 15th through April. "Everyone" comes to our "Mecca of America" - Williamsburg, and the Spring is an ideal time for such a trek. We are but a "stone's throw" away - just off Route 17 (see map) - so do come to see our pride and joy and to pick out your choices for planting next fall. In addition to Daffodils we have a number of other spring blooming bulbs.

A trip to our Garden may well be combined with your visit to the Tidewater Virginia's ADS Daffodil Show in Newport News March 31st and April 1st, as well as the Garden Club of Gloucester's Annual Daffodil Show, April 7th and 8th (schedules sent upon request). If in the Richmond area, be sure to see our large Exhibit of blooms at the Collegiate School on April 11th and 12th.

Those of you who plan to attend the ADS Convention in Nashville Tennessee may have the opportunity of seeing our blooms in the Cheekwood Gardens.

SEND DAFFODIL BLOOMS to your hospitalized friends (see enclosed GREEN SLIP). A most rewarding gift for the least money.

MIXTURES

Many gardeners not desiring to Exhibit blooms in Shows and consequently not interested in having the names, find it most satisfactory and economical to buy our unexcelled MIXTURES. Many people have become so enthralled with those received that have had them identified and have become avid EXHIBITORS after winning a few Blue Ribbons! The MIXTURES also make marvelous gifts for Housewarmings as well as Christmas, Birthday and Anniversary, (we send the recipient a card advising the bulbs will be sent them at proper planting time).

SPECIAL NOVELTY MIXTURE - All types, colors, sizes and shapes. This unexcelled mixture is not to be confused with any other available, and contains, all told, 500 or more truly distinctive Novelty types, therefore by the law of averages, you get at least 40 different varieties and are liable to get even more, per 100 bulbs. Planted in a cutting bed, they will give ample and diversified blooms for the home over a long period of time each spring. We sell a tremendous quantity of this Mixture each year and the resultant "Fan Mail" is extremely rewarding.

100 bulbs for \$8.00

SUPER NOVELTY MIXTURE - Guaranteed to contain 1 bulb each of 100 Novelty types.

100 bulbs for \$12.50

ROCKERY MIXTURE - Small types suitable for a Rock Garden.

12 bulbs for \$1.50

100 bulbs for \$10.50

NATURALIZING MIXTURE - Only types suitable for this purpose.

All colors. 100 bulbs for \$6.00

White only 100 bulbs for \$9.00

Yellow only 100 bulbs for \$6.00

(on all above please include 10% of total order East of Miss., 15% West, see prices - page 1)

For those of you who prefer named varieties but are not too familiar with same we have prepared a number of collections which we are sure will more than satisfy you. These are less expensive than buying per bulb. (see white insert)

OUR 1962 BUSHEL SPECIAL

This very wonderful bargain consists of 1 peck each of 4 distinctly different varieties, which bloom over an extended period of time, and are notably suitable for naturalizing.

1 BUSHEL. \$20.00

½ BUSHEL (½ peck each of four varieties) \$11.00

Prepaid East of Mississippi (the only Prepared bulbs offered in this list. Will bill for postage West of Mississippi.

BE SURE to include 10% of total order (East of Miss. - 15% West) on all orders except Bushel lots (see Postage).

EXPLANATION OF SYMBOLS

Our **INFORMATIVE CLASSIFICATION** (see enclosed yellow slip) is an effort to clarify further that of the **ROYAL HORTICULTURAL SOCIETY OF LONDON**. Following this carefully, we believe that those really interested can form an accurate picture of the bloom. For example: 3a-1, **DINKIE . . . 40**, is a small-cupped narcissus with a banded or orange-red cup and yellow petals, is priced at \$.40, and is new with us this year. The **MINIATURES, DWARFS AND ROCK GARDEN** varieties are designated by their height in inches. Many of these are wild forms, therefore belong in Divisions 10 and 11, however for easier descriptive identification we have indicated in parentheses their characteristics, for example: 10(5a), **ANGELS TEARS ...3" ...15**, is a wild form (10), with triandrus characteristics (5a), is 3 inches tall, and is priced at \$.15 each.

MINIATURES - The demand for these little gems is phenomenal - **DO ORDER EARLY** and shall ship early so you may get them planted before cold weather, especially in the North.

Of **SPECIAL INTEREST** are 152 varieties designated by (L) which are to be dug and eliminated from our plantings this year. These we are offering at **GREATLY REDUCED PRICES**. Those not sold will enrich our Novelty Mixtures on 1963. They are strong growers with lovely blooms, many prize-winners in their day with interesting features which has led us to continue raising some for over 20 years. Our only complaint is that most are slow of increase, which should be an appealing feature for gardeners as they may be left undisturbed for five or six years. (We plan to naturalize a small clump of each so we may continue to enjoy them ourselves.) This is the **LAST CHANCE** for **COLLECTORS** and we urge you to take advantage of such a wonderful opportunity. As quantities on some of these varieties are limited, we reserve the right, if sold out, to give similar bulbs of equal or greater value.

See 1961 "Daffodils on Parade" for descriptions not given on page 60.

lapping perianth surrounds a frilled cup of bright orange yellow. 2.50

- 1a-1 **Ulster Prince** - late, the best trumpet of moderate price for show in these regions. 1.10
- 2a-2 **Ultimus** - valuable for being one of the latest to bloom with creamy perianth and soft orange cup. .25
- 2a-1 **VIRTUE** - an exhibition bloom of faultless form, all a clear brilliant golden color. 1.25
- 2a-2 **WARRIOR** - this bold flower has a fine rounded perianth of clear gold and a wide bowl-shaped crown of rich orange. 8.40
- 2c-1 **WEDDING BELL** - of silken smoothness, its broad flat petals and well-proportioned bell-like crown are snowy white. 2.50
- 2c-1 **Well Born** - a pure self-white flower throughout, of faultless quality, with neatly flanged crown. .75
- 2c-2 **White Butterfly** - lovely and late flower, this is a beautiful addition to your garden, and has an interesting green-tinged crown. .30
- 4-4 **White Lion** - a desirable medium sized bloom of palest cream with center petals cream and yellow. .35
- 1c-1 **WHITE PRINCE** - a very large white trumpet of perfect form - rated second to Empress of Ireland. 16.50
- 2b-3 **WILD ROSE** - a dream of a flower with a cup of definite solid rosy pink to its base and petals of rather transparent pure white. .50
- 3c-1 **WISDOM** - not new, but an excellent small-cupped and green-eyed bloom for show. .35
- 7b-1 **Zanita** - a very tall large jonquil of bright citron yellow with slightly deeper cup, green-centered. Fine for show. .50
- 2c-1 **Zero** - slow of increase, however still a favorite for exhibition; is icy white throughout, has a trumpet like cup and is beautifully tailored. 2.00

NEW MINIATURES

SPECIAL - summer and fall blooming bulbs

Order BEFORE MAY 1ST

Ismene Calathina (Peruvian Daffodils)

A member of the Amaryllis family, it has exquisitely fragrant white blooms, funnel shaped with a very fringed crown and grows in clusters on tall stems. Planted after all danger of frost is past, they bloom in three weeks time. Unexcelled for long-lasting cut flowers. Planting directions included - .60 each, \$6.00 dozen. Order before JULY 1ST.

LYCORIS RADIATA (Red Spider Lily) - Large circular clusters of bright red flowers on 2 foot spikes appear almost over night in mid September. A long lasting beautiful cut flower for the house, or a stunning item in the garden. The foliage appears in October and is a welcome spot of deep green in the garden all winter, disappearing in the spring.

These bulbs resent transplanting, especially if done at the wrong time, but will increase rapidly if left undisturbed. Radiata is especially touchy and care must be taken when digging not to break the thick fleshy roots which are never dormant, and take a year to replace if broken. \$2.50 dozen.

MISCELLANEOUS SPRING BLOOMING BULBS

(to compliment, contrast, precede or follow your Daffodil plantings) allum (aflatunense) spherical bloom with purple lilac florets - \$2.00 dozen.

Anemone Blanda Blue, Blanda Mixed, DeCaen Mixed, St. Brigid Mixed - \$5.00 per 100

The Blanda are small and low growing, the St. Brigid are semi-double, DeCaen single. The latter two are about 10 to 12 inches tall and very vivid.

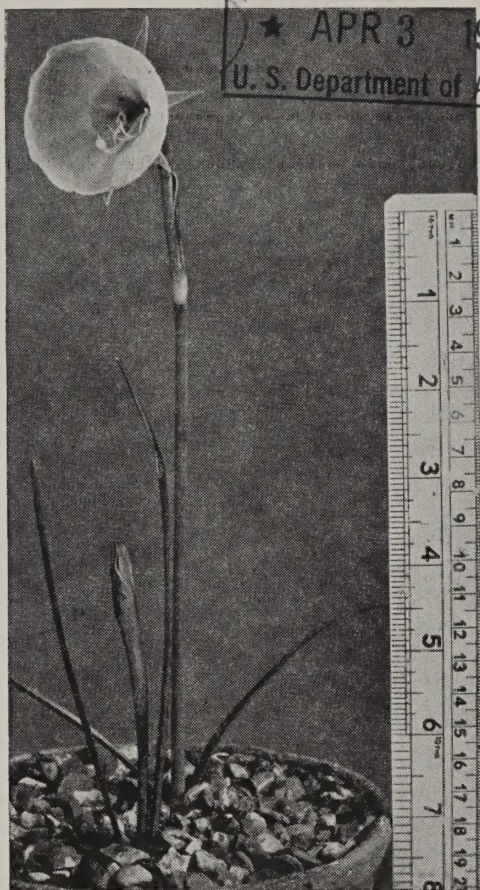

Chinodoxa - Sardensis - \$5.00 per 100

A lovely gentian blue and beautiful with daffodils - late mid-season.

Save planting instructions (see yellow insert) for future use.

Why not try some of these novelties?

EMPRESS OF IRELAND

The latest, largest and finest in white trumpets. 5" across with huge flat petals and a wonderful trumpet. Of faultless form balance and proportion that entirely satisfies the eye, smooth flat perianth built of magnificent ace of spades shaped petals of immense breadth, wonderful trumpet ideally flanged and frilled at mouth. Early. Strong.
\$23.50 each.

WHITE PRINCE

Exquisite pure white trumpet. Very large with somewhat narrower trumpet than *Empress of Ireland* and perhaps a slightly purer white. Strong. Tall. Large.
\$19.60 each.

PURITY

An exquisite Award of Merit (London) flower in the Large cup class. Beautiful flat pointed petals and a neat cup. Petals exactly at right angles to crown. Chaste flower, very free of flower and robust.
\$10.50 each or three bulbs for \$25

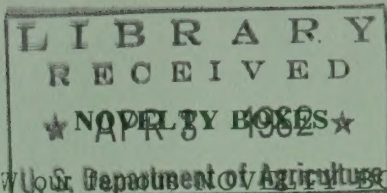

PASSIONALE

This pink cupped flower is really going places. It is a magnificent daffodil. It gives a terrific crop of first class flowers and even if the crowns were not a delicious pure pink they would still be exquisite flowers.
\$21 each.

LEMON DORIC

The reversed bicolors are rare plants. This Large cupped kind is a daughter of *Binkie* but a little more refined, with longer crown and paler colouring. A real cool flower. The crown passes to white in a day or two after opening pale lemon.
\$3 each, three bulbs for \$8 or \$25.20 a dozen.

PLEASE PLANT AT ONCE - if unable to do so please open all bags so air may get to the bulbs - they will go into a heat and rot otherwise. We ship these bulbs at the proper planting time and urge you to get them in the ground at once to insure fine blooms next spring. A bulb which has made roots will not freeze.

PLEASE NOTE: On the reverse side we have printed our Own Informative Classification of Daffodils - this is similar to the universally accepted and used Royal Horticultural Society of London's List with added numerals to better aid our customers in getting a true description of the variety. We no longer plan to reprint same in our yearly price lists therefore suggest you hold on to it for future reference.

PLANTING INSTRUCTIONS FOR DAFFODILS

The main requirement is a well drained soil. They are not happy where water will stand a day or two after rains. Any good garden soil is ideal. VIGORO Bulb Food (which we have been using for several years and can wholeheartedly recommend), cow manure or bone meal mixed in the soil at, or preferably before planting time, will produce bulbs of fine size. A top dressing of Vigoro during the winter months is always helpful or an application of cow manure at that time which also serves as a mulch. Wait at least a month after the bulbs are planted before applying the top dressing, thus allowing the root system to develop. The roots are active all winter, taking in and storing up nourishment. It is useless to fertilize your bulbs in the spring after blooming as once they have bloomed and the foliage starts to die down the bulbs are in a dormant stage. In the Northern states, plant deep enough so that the neck of the bulb is covered by 4 or 5 inches of earth after the ground has settled. In the Middle Atlantic States 3 or 4 inches is desirable; while in the southern states 2 or 3 inches is sufficient. For large blooms bulbs should be dug, divided and replanted every 2 to 4 years, otherwise they become overcrowded. For show flowers, select a sheltered, well protected spot, this is especially important with some of the new highly rated red cups and pinks. Another point which we do not believe can be overlooked is the fact that it is imperative never to plant Daffodils in soil where bulbs have disappeared. Basal rot will readily attack the new bulbs and your efforts and money go for naught. Upon receipt examine bulbs carefully for any signs of mold or rot (we ship only sound bulbs, free from disease - all our bulbs are inspected twice yearly, growing and in storage but occasionally they overheat in transit and hence become soft.) Do not plant any thus affected but notify us at once. As is customary complaints shall be deemed waived unless presented within 8 days after receipt of goods.

MINIATURES

With the increased interest in growing Miniatures and Rockery types we shall add a few words of suggestion in regards to them.

Plant early, a good root growth before cold weather is essential, especially as they should not be planted too deep - the tiny fellows simply haven't the strength to push through a lot of soil - however in the North be sure to mulch them well. We have had great success in planting the wee ones in pots and placing the pots in earth - this affords them added protection and as they are planted shallow prevents marauding rodents or animals from scratching them up and rolling them off. Animals do not eat Daffodil bulbs which are rank poison to them. To protect your other bulbs from mole runs and resultant mice it is often advisable to plant in wire baskets. However, the repeated use of Mole-Nots here on the farm keeps us from their depredations. The miniature daffodils, scillas and chinodoxa are lovely when planted in the pockets at the base of tree trunks where they have a natural protection against winds and weeds, get plenty of early spring sun, enough moisture and sufficient food.
